BELMONT

Milestone celebration for centre

THE Belmont Business Enterprise Centre celebrates its 20th anniversary this month.

The not-for-profit group was established in May 1994 as a one-stop-shop offering low cost advisory services and small business support.

Online mentoring and training via webinars has allowed the service to also support small businesses across Australia.

Its founding manager, Carol Hanlon, also established the Belmont Small Business Awards, designedge fashion incubator project and Textile Clothing Footwear Resource Centre of WA.

Belmont BEC chair Cassie Rowe said the group also focused on ensuring that women, indigenous people and those living in rural and remote areas of Australia had access to business skills training.
