BELMONT

Volunteers help to pack the latest shipment.

Help for sewing centres

➤ SINCE 2007, thanks to the support of West Australians, four sea containers of sewing equipment have been sent to Ormoc, in the Leyte Province in the Philippines, to **help women and men start and run their own sewing centres.**

And last weekend, a fifth container was filled and packed.

The Textile Clothing and Footwear Global Project helps to develop creativity

to foster a sense of entrepreneurship in the community.

TCF Ormoc is supported by community organisations including the Textile, Clothing and Footwear Resource Centre of WA, Belmont Business Enterprise Centre and designedge.

Ormoc City in Leyte Province was affected by Typhoon Haiyan and it is hoped the latest shipment will help rebuild affected sewing centres.
