Monitoring Your Energy Bills in Your Business

Part of the TCF Australia ONLINE ENERGY EFFICIENCY Training & Mentoring Project

The TCF Australia ONLINE ENERGY EFFICIENCY Training & Mentoring Project offers an extensive range of specialist energy efficiency services to small businesses across Australia to help businesses in Australia to be more energy efficient. This program has been made possible via funding from the Department of Industry and Science as part of the Energy Efficiency Information Grants Program.

One of the FREE ONLINE WEBINARS that small business owners can access on their PC, laptop, tablet or iPhone is, 'Monitoring Your Energy Bills in Your Business'.

Webinar presenter of 'Monitoring Your Energy Bills in Your Business' Craig Benporath from Greenhouse International said, "During this webinar, participants will learn what to look for on their energy bills to identify problems and reduce costs. In addition we will teach people how to monitor and track their energy usage."

"Monitoring energy consumption in more detail than quarterly or monthly energy bills can help to uncover a range of energy saving opportunities", said Craig Benporath.

Carol Hanlon, Project Manager for the TCF Australia ONLINE ENERGY EFFICIENCY Training & Mentoring Project said, "We are excited to be able to offer this type of money saving information to small businesses. Participants will be able to work through a checklist so that that they know how to analyse energy usage in their own businesses".

Participants in the Project also have access to a FREE Online Energy Mentor. Mentors are readily available to assist with guiding you through energy efficiencies in your business, or assistance with your financial management of energy bills. Webinars are available for all small businesses, and for those that cannot make a scheduled webinar, it is possible to request a recorded session.

To register to receive FREE Energy Efficiency advisory services visit www.tcfaustralia.com/tcfaenergyform or email greenenergy@tcfaustralia.com
