Trends @ MY Green Incubator

Monthly Energy Tip

Be aware of which items use the most energy and where energy can be saved : 20-40% of energy can be saved through no cost or low cost actions. If you are unsure of where your energy is being consumed 'low cost energy monitors' can be purchased that connect to your power supply and give instant and recorded energy usage. This will enable you to understand your energy usage and assist with taking actions to reduce it. TCF Australia

Energy Tip provided by GreenBiz Check
Make a plan to be energy efficient every month of the year with our monthly energy-saving tips.

Tips from Computer Consultants Professionals

Have you heard of Snopes ?

It's a fantastic urban legends reference guide. Every time I read something incredible on the internet and I wonder is that real, I check it out on snopes to get the real story.

The two words snopes should link to <http://goo.gl/pC4y> www.ccp.com.au
