Embrace business sustainability on a budget

In today's business landscape, sustainability is no longer a 'nice to have'. It's a must. Consumers expect it; regulators are beginning to require it, and future-focused businesses know it's the right thing to do. But for small businesses with tight budgets and limited resources, sustainability can feel out of reach. This article breaks down exactly how small businesses can take meaningful steps towards sustainability without breaking the bank – [here](#).

'1001 Business Tips from 101™ Cyber Security Experts

Be alert - Social Engineering attempts are one of the biggest threats to your business's health. A single phishing attempt can result in huge loss. Phishing emails even look legitimate as they are coming from the legitimate or trusted vendors such as Microsoft, banking, or your internet providers. These emails include attachments or sometimes ask for Personal Identifiable Information (PII). So, always scan for email attachments and take a moment while responding to such emails. Your proactive response can prevent many cyber-attacks.

Cyber safety for small and medium business owners

Cyber-crime remains a constant and disruptive threat. Cyber criminals are evolving to take advantage of emerging technologies like artificial intelligence, which lowers the complexity required for their operations. Business email compromise and fraud were among the most frequently self-reported cyber-crimes affecting businesses and individuals in Australia. Ransomware and data theft extortion also remained a widespread and costly threat. [Learn more](#).
