Strategic predictions for 2025 and beyond: Riding the AI whirlwind

AI is no longer just a trend – it's a force of transformation, intertwining with other innovations to reshape business strategies, operations, and entire industries. Last year, organisations focused on becoming AI-ready, building literacy, and identifying key use cases. Now, the challenge is to go beyond readiness and become AI-advanced. The Gartner® report¹, Gartner's Top Strategic Predictions for 2025 and Beyond: Riding the AI Whirlwind, explores how AI will impact privacy, management structures, and the way businesses operate. Why side hustles are a bad idea

Despite the obvious appeal of side hustles — more money! — they're not for everyone. If your side hustle makes you stress out, neglect relationships, or miss opportunities at your day job, then consider it a bad idea. Side hustles are only beneficial when they help you accomplish goals without sacrificing what matters most. Read on to find out how to evaluate your options and goals before taking on a side hustle – [here](#).

Small Business News

Small business employers are such a positive contributor to livelihood opportunities and a vital part of upskilling our nation. Almost 40% of the workforce in the 2023–24 financial year had a small business as their workplace. In 2023, small business employed 144,257 apprentices and trainees which was more than 40% of all apprentices and trainees – a proportionally greater contribution to the development of vital skills that our nation needs compared to much bigger business employers.
